Friday, May 6th, 9 A.M.

Second Edition.

Mostly OLYMPIAN'S new Yangtze steamer the *Kiung* arrived last night. She left Singapore on the 20th inst. The *Enna* with the London mails of 26th March, had reached Singapore, and left with the *Kiung*. We have been favored with a Straits Times Extra, and with the Overland Mail of 29th March, as also with the latest telegram from below. We reproduce the following Summary, and as we do not expect the *Enna* until to-morrow, we shall reproduce the Straits Times Extra in its entirety during the day.

The P. & O. Company's steamer *Enna*, Capt. G. Eastly, with the English mails of the 26th March, and with the London mails of the 14th inst. Galle the 22nd, and Penang the 27th, arrived at Singapore 29th April.

Cable & C. Cape Town, 27th March. With duplicate of our last dispatch, we avail ourselves of present opportunity to advise you that the Confederate steamer *Alabama* arrived here on the 20th inst., took on board 300 tons of coal, and left on the 26th inst., destination of course unknown, but we may hope that she will not be heard of again for the present in the Eastern Seas.

Austria and Prussia have accepted the Conference, without an armistice; but have commenced active operations against Denmark. There has been some sharp fighting before Duppel, and the Austrians have been bombarding Fredericia, but for some unexplained reason have retired from before the fortress.

The King of Denmark in closing the Rigsdag stated that though he was anxious for a honorable peace, the day of a humiliating peace was still far distant.

General Sherman has returned to Vicksburg. This statement is confirmed by the fact that the King of Denmark in closing the Rigsdag stated that though he was anxious for a honorable peace, the day of a humiliating peace was still far distant.

The present position of affairs is, that the Federals, having, during the winter recess conceived the idea of a spring campaign, distinguished by greater boldness and rapidity of execution than the winter campaign, and in their movements have accomplished nothing but an egregious failure. No great success having attended their operations on a large scale, devised in accordance with recognized military principles, they determined to try the experiment of a coup d'etat, and organized certain expeditions, which were to take the enemy by surprise, and carry everything before them by the mere force of suddenness and rapidity. General KATKAMP was to have made a dash on Richmond, and to have captured it within a fortnight. But instead of accomplishing this, he had to beat a retreat—and a disastrous one—and succeeded in nothing but the commission of a great military blunder, and the loss of 10,000 men.

The following are the dates of the battles fought by the Federals, and the results of the same: On 1st March, at St. Vincent, the Federals, under the command of General Sherman, defeated the Confederates, under the command of General Johnston, by a large vote. Another raid, on a large scale, under command of General Sherman, was to have been carried out on 10th March, but it was postponed on account of the weather. On 15th March, the Federals, under the command of General Sherman, defeated the Confederates, under the command of General Johnston, by a large vote.

The coroner's jury who inquired into the late calamity at Sheffield have reported that, in their opinion, there was not that attention to the construction of the works which their magnitude demanded.

Ten men have been convicted at Cork of illegal military drilling.

The Archbishop of Canterbury has issued a pastoral, explaining the reasons for dissenting from the decision of the Privy Council in regard to *Evangelical Review*.

Among the deaths reported during the week are those of Insp. Gen. Thomas Mackenzie, Bombay Medical Establishment, the Earl of Aberdeen, the Earl of Ashburnham, Admiral Hugh Paton, Rear Admiral J. N. Taylor, and Vice-Admiral Du Petit-Thouars.

LONDON MARKET REPORT. March 28th, 1884. Silk—There is a stronger feeling in this market and 21s. per lb. is now obtainable for No. 3 Tussie. The improvement is chiefly due to the firmness of the importers.

Since the 18th March the market has continued very quiet with a limited amount of business. Low quotations having been made for blackish leaf Congous from 15 to 18 to 17½—strong with Pekoe flavour, a further enquiry has existed, which importers do not expect to be met. Some special enquiries have also existed, for reddish leaf Congous up to 12½, making the quotations for these and inferior grades 1d per lb. about the lowest point; American shippers have taken Oolong up to 1s. 2d., uncoloured Japan up to 1s. 6d. and Common Greens. Public sales commenced on the 15th and concluded on the 18th March, 36,700 packages were offered, 19,900 packages "without reserve" and 19,900 sold; no notable alteration in price was established, although a flat tendency was noted chiefly in the early part of the sales.
